STANFORD, KY. FRIDAY, NOVEMBER 15, 1889.

NO. 79.

**The Stanford Bar's Tribute to Col. Swope. The I. J. Man at Wayne Circuit Court with his Note Book.**

A meeting of the bar was held in the Court-house Tuesday afternoon to express its high regard for the late Col. A. M. Swope and adopt suitable resolutions on his life and character:

Col. T. W. Varnon was called to preside and circuit clerk, J. P. Bailey, was made secretary. Short eulogies were delivered by Lawyers Welch, Hill, McRoberts, Gentry and Miller, after which the committee appointed to draft the resolutions, Messrs. Hill, Welch and Miller, reported the following, which were adopted:

Resolved, Ist. That the Lincoln County Bar, the senior members of which have known Hon. A. M. Swope from his boyhood and all during his manhood, and business and political career, take great pleasure in expressing our opinion that he was a gentleman who through his attainments and virtues was worthy of the confidence that was reposed in him generally, and in every sense deserving of the honors and positions that were bestowed upon him. That he was a man of brilliant attainments, of generous, magnanimous feeling, of commendable aspirations, of honest convictions, of a noble resolution in all his purposes, of unfaltering courage, of steady honesty, of open hearted charity and in all things honorable. And we do most heartily and with much sorrow sympathize with his family, the people of this county and State, our own profession and the country at large upon the loss of this excellent and useful man.

2d. That we command his virtues and his active career, whereby he attained to a position of honor and usefulness, to our fellow citizens generally and to our young men particularly.

3d. That we do hereby take much satisfaction in testifying to the fact that our commendation of him in this county of his birth and early manhood is not confined to our own profession, but to our whole people, by whom he was not only admired and respected, but most tenderly beloved and this irrespective of political or social differences.

4th. That the members of this bar, though the old friends, fellow countrymen and companions of Hon. A. M. Swope, do most heartily sympathize with the widow and orphaned children of the Hon. Wm. Cassius Goodloe, in their sudden, unexpected and terrible sorrow, with the hope that "He who temperates the wind to the shorn lamb" will be their comforter in their great bereavement.

5th. That as members of the legal profession and of a bar which has heretofore healed its differences without resorting to the desperate resource of bloodshed, we do hereby express our unqualified regret that the late differences between Hon. A. M. Swope and Hon. Wm. Cassius Goodloe, both useful, influential and honorable members of the legal profession, should have culminated in the terrible tragedy at Lexington, whereby both, useful and valuable to their families and to the country have lost their lives—and we do most earnestly appeal to the members of the legal profession of the whole country, and especially of Kentucky, nearest and dearest to us, to have, promote and cultivate a sentiment of laudable aspiration and ambition, whether professional, political or otherwise, that shall be devoid of animosity and hatred. That unpleasant and hostile differences shall if possible be avoided and if quarrels ensue that they shall be adjusted and reconciled through pacific methods, and that the members of the legal profession through their conduct towards and intercourse with each other, set an example of peace and good will and if possible make it the foundation of social order and security.

6th. That a copy of these resolutions be furnished the press for publication and the Lincoln County and Circuit Courts be requested to spread them at large upon their order books.

II. RULE.—C. H. Harris sold to James Robinson some long yearlings at 3 cents. Wm. Hubble & Son sold a young jack to a Missouri party for \$800. Robt. Hoekler has his house on Cherry street about completed. Jerry Davison is fixing to build on Yeak's land to use his lifetime. Bro. Montgomery will preach at the school-house Saturday night. Moses Miller made Miss Dora Leak his better half last week. June Boldt, of Pulaski, is visiting her brother, William Hubbell. Mr. Herin sold John Wood two 600 pound hifers at \$1.00 per hundred. Bind Cox, at the old Engleman place, has the mill in grinding trim again. R. L. Hubble sold to Robinson, near Hustonville, 40 Missouri miles at \$30. Alex Hocker bought one pony of John Wood for \$45. Turkeys are brisk here at 5 and eggs at 15.

Crossed in love, Miss Bertha Kimball, a Brooklyn belle, committed suicide.

Calvin S. Bice has formally announced his candidacy for the Ohio Senatorship.

**Our Hannah Jane.**  
Our Hannah Jane was thin and weak  
And ashy white her lip and cheek,  
We often thought—and thought with pite,  
"We soon must lose our Hannah Jane."  
With change of doctor, change of air,  
She sought for healing everywhere,  
And, when our hopes were almost past,  
"Favorite Prescription" was tried at last.  
It gave us joy, it gave us hope,  
She ceased to pine, she ceased to moan,  
(Pierce's remedies are sure and true)  
Now Hannah Jane is good as new.

Dr. Pierce's Favorite Prescription is the only medicine for women sold by druggists under a positive guarantee from the manufacturers that it will give satisfaction in every case, or money refunded. This guarantee has been placed on the bottle wrapper and faithfully carried on for many years.

Dr. Pierce's Pellets—cleanse and regulate the stomach, bowels and system generally. Once dose; purely vegetable.

DANVILLE, BOYLE COUNTY.

Six years ago this month, I strade a black horse, which was as far from being an equine beauty as he was from being a good saddler. I came into Monticello for my first time. I was impressed then with the quaint but cozy appearance of the dwellings, with the hospitality of the citizens, and lastly, but by far not leastly, the good looking, rosy-cheeked lasses that Wayne county should with pride claim her own. Each of my yearly visits has increased my admiration of these queer buildings, caused me to enjoy with greater pleasure that genuine hospitality as well as entertain with a decidedly tender degree an exalted opinion of the fair daughters. I like Monticello because of the freshness that penetrates one's system wide in her boundary, because I know all of her people and know them well and thirdly because they show a peculiar fondness for the INTERIOR JOURNAL. Coupling these advantages together, I would consider myself fit only for treasons, stratagems and spoils were I not the possessor of a feeling wonderfully kind for this good but quiet old place.

In company with Hon. R. C. Warren I left Stanford Sunday morning to first drive to Junction City, there to take train for Somerset, where a rig was at the depot to convey me to Wayne's capital. Thoughtful as women usually are, Mr. Warren's wife had prepared for him a delightful lunch, which he invited me to accept of. On the bank of the Cumberland river, where a beautiful spray of water comes from a high ledge of rocks, and where the sun was shining brightly we halted to dine. The place was a picture-like one, presenting an excellent view of the smoothly flowing Cumberland and the fertile valleys that border it, and because of its likeness to a spring and the surroundings in Old Virginia we christened it in honor of it and hereafter it will be known by us, at least, as Tinkling Spring.

A large crowd attended Court Monday but very little business was done. The docket is a light one and excepting the case of Bates for killing Bartleson, there is little litigation. The grand jury, of course, will make it lively for the boys though, and so long as it lasts there need be no occasion for a dull time. It matters not whether there is or not nor is to be any business the lawyers come all the same. They are here (permit me to quote Mr. Watterson) from Cape Cod to Kalimazoo and each day brings one or two more. Lincoln's representative is an honorable exception to this rule, for besides being in two or three good cases which were expected to come up this court, he was engaged immediately on his arrival here to assist in the prosecution of Bates, who killed Bartleson.

There is considerable excitement here over the proposed railroad. The tax of \$85,000 has already been voted and at present it looks like the day is not far off when the shrill whistle of the locomotive will reverberate from hill to valley and valley to hill in Wayne county. It will be a great thing for Monticello, so the best business men think, and I trust it will prove of the great benefit they think it will.

I spent a short while on "Clockey street" Monday and I must say these are the "tradingest" people on earth. Some six or eight trades were made in the few moments I was there and an "old professional" told me there had been fully 50 that morning.

A long looked for wedding occurred Tuesday morning some six miles out in the country. Mr. William McCaughey and Miss Jessie, the beautiful daughter of Dr. J. A. Jones, were the participants. Both of the contracting parties are the elite of this section and the affair was an elegant and memorable one.

Where is Bright Ferrill? This question has been propounded to me a hundred times and shows beyond doubt that that gentleman is a popular one in this section as he is in Lincoln. That Bright showed how fleet of foot he is a few days ago was received with surprise here by the people who thought him brave enough to tackle a buzz saw.

I am under obligations to my republican friend Hen Tuttle for valuable services rendered me. He not only introduced me to all of his republican friends, but made the majority of them pull out the dents and subscribe to the "cheapest and best."

That good old democrat, Col. Ike Sheppard, is decidedly the most rejoiced and delighted man over the recent democratic cyclone that swept over a half dozen republican or pivotal States, that I know of. He is confident that the world is going democratic and that Governor Cleveland will be the next man to honor the presidential chair.

His defeat for representative has not lessened in the least his love for the cause and he can be relied on as doing his very best when Wayne county is called upon.

Mr. M. D. Hardin, who has for a half century given the traveling public the best in the land to eat and feather beds to rest upon, will quit the hotel business Jan. 1st and move from Monticello. He is undecided as to where he will locate, but thinks he will spend his declining years in Stanford. E. C. W.

CRAB ORCHARD.

—Miss Nannie Collier's school closed Friday.

—R. G. Ward shipped a car-load of hogs to Cincinnati this week.

—The ladies of the Methodist church will give a candy-pulling Friday night, 5th; also will serve dinner county court day, the proceeds to go towards the erection of the new church, which will be built in the near future. The pastor is also asking for contributions for the same purpose.

—If there is a time and place a person ought to be polite and respectful, it is at church. We notice at most all churches people putting on their overcoats and wraps while the invitation song or doxology is being sung. I think it would be just as polite to put on your hat before the service is over.

—On Friday night, December 27th the Anaconda Club, of this place, will celebrate the 50th year of its existence. The Club will issue invitations to each member's wife, each ex-member and wife and to each deceased member's wife, which will be near 100 in all. This semi-centennial celebration will be given at the Deaf and Dumb Institute.

—Since the election things have about settled down to their usual way. The successful candidates are jubilant, but doubtless get tired shaking hands with the voters from now till next August, when the final election will come off. The ticket is a good one. If there are any hard feelings let them drop and all work together and elect a full democratic ticket next August.

—The marriage of Mr. W. B. Thomas, of Mayville, to Miss Mary Cheek, of this place, took place Tuesday morning at 10 o'clock at the residence of the bride's mother, Rev. F. J. Cheek, of Paris, performed the ceremony. They are both well known here; both are natives of this place. Mr. Thomas was formerly express agent at this place, but located in Mayville about 10 years ago. They left on the first train for Cincinnati to spend a few days. From there they will go to Mayville, their future home. Mr. Ad. M. King will lead to the marriage altar Miss Sadie Bright, the 20th.

—The lecture given Tuesday night by Col. J. P. Sanford was appreciated by a large audience. The subject of his lecture was changed from "Walkin' Rome" which was first announced, to "The Old Times and the New." The lecture, which lasted an hour and three-quarters, was interesting from beginning to end. Mr. Sanford said he had been around the world three times and crossed the ocean 10 times. The description of his travels and what he saw were presented in such a way as to make one imagine he could almost see them. At times in his talk he would tell things which were very laughable and which made it more enjoyable. If the remaining five lectures, which are to follow, are as good as this one, no one I think will regret the time and money expended.

JUNCTION CITY, BOYLE COUNTY.

—W. D. Cozett, Will Terry, W. Green, J. E. Turner and Frank Ellis went down in Casey county last Saturday and killed a number of rabbids and partridges.

—The Montezuma special, consisting of four cars, passed through here on the C. S. Thursday night. This train is said to be the finest in the world and will make six trips per month between New Orleans and the City of Mexico.

—The evading trial of George Gordon for killing John Brooks, at Parksville, was continued Tuesday till Nov. 23 on account of the serious condition of the defendant, who, it will be remembered, was shot twice. His condition is serious if not dangerous.

—A party of 12 hunters left here Monday night via the L. & N., for Marysville, Tenn., to hunt bear and deer. They got over into North Carolina. The party is composed of J. M. and J. T. Bailey, J. P. Harberson, Sr., M. A. Kenney, Alex Alverson, Kirk Elder, Thomas Helms, S. and J. A. Slaughter, D. Mahan, S. and W. Eastland and Charles McDowell. They took a car of horses and camping outfit with them.

—DANVILLE.—The marriage of Dr. Ad. M. King to Miss Sadie Rochester Bright is announced to take place in this city, Wednesday, Nov. 20th. The marriage of Mr. W. B. Thomas, of Mayville, to Miss Mary Cheek, of this city, will be solemnized this morning. Rev. F. J. Cheek, of Paris, brother of the bride, will perform the ceremony. Mr. Godfrey Darbshire, who married Miss Anna, daughter of Col. Isaac Shelly, died at Key West. Sam Moore sold 100 head of 1,600 pound cattle at 2½ to 3 cents, cents.

## SEMI-WEEKLY INTERIOR JOURNAL

STANFORD, KY., NOVEMBER 15, 1889

W. P. WALTON.

THAT Cols. Swope and Goodloe were possessed of some of the noblest traits of humanity, and that the former deserved the highest praise for attaining single handed and unaided the exalted positions, both politically and socially, that he enjoyed, none can deny. But it is apt to be forgotten, in recalling their many virtues that these fine gentlemen, as everybody regarded them, bore murder continually in their hearts, ready to carry it into execution whenever the occasion presented itself. There is every constituent of murder in their act of butchering each other, including the necessary one of malice, which was ever uppermost in their minds. They murdered each other as each intended to do whenever the chance came. It is well that both died after one did. Had either lived after the horrible crime remorse and misery would have clung to him for life, even though the courts had gone through the forms of acquittal. Especially is this true of Col. Goodloe, who held his victim up and continued to plunge the savage knife into him after he had cut his heart in two. The Louisville Times, after discussing the tragedy, closed a timely article as follows: "Col. Goodloe would have reproached himself hourly with the thought that the encounter might have been avoided, that the blood of his fellow might not have been on his hands, and that he might have saved his honor without taking the life that was not his to take and that was not his to restore. This would have been his future, even had the tragedy been unattended by the ferocity of holding a dying man on his feet and sending a dagger into his vitals. But in a Christian community what could have been in store for a man who made the horrible remark attributed to Col. Goodloe when the butchery was over? 'He bellowed like a calf.' Had Goodloe lived century those words would have been associated with him, and men—even friends—would have shrank from him and shuddered at his approach. The result would have been desperation and misery, and however much we may deplore the tragedy, the death of Goodloe was a blessing to himself, to his friends and to the community."

GEN. FAYETTE HEWITT, after making Kentucky one of the best auditors she has ever had, has resigned to give more attention to his private interests, which include the presidency of the State National Bank. He has served the State most honorably and naught can be said against him, save that he had too much confidence in Dick Tate, in which, however, he was not alone. The governor has appointed Insurance Commissioner L. C. Norman to fill the vacancy and promoted H. T. Duncan, Deputy Insurance Commissioner to the charge of that office. Capt. W. T. Havens, of the Mt. Sterling Sentinel, succeeds Mr. Duncan and his friends of the State press will feel much gratified at this deserved recognition of a good man and a true democrat.

The Chicago Times very aptly remarks, "What slashing denunciations of the barbarism of the South we would have from the leading Northern Republican organs if a slight drawback did not occur in the narrative. How we would have denounced Swope and Goodloe if only they had been Confederate brigadiers?" Very true. But in this instance the actors in the horrible tragedy were republicans and it is only spoken of as an unfortunate affair.

It is said that a man named Pinkerton started to Washington as soon as he heard Goodloe was shot to be in time with his petition to succeed him. We do not know Pinkerton, but that very act damns him, and we take it that the president will not appoint a man to such an office who could be guilty of such indecent haste.

It is stated that many of the members of the Women's Christian Temperance Union, opposing extreme methods and the third-party movement to which the union is pledged, will secede and join the new organization, which is non-political and more conservative. The idea is a good one.

In an article stating how many men Cassius M. Clay had gotten away with, in "personal encounters, which were forced on him," the Cincinnati Commercial-Gazette failed to tell about the poor negro he killed under the most questionable circumstances. Tell the whole tale when you start out.

The other day count makes Cincinnati 7,253 democratic. Louisville will have to hump herself in December, unless she would play second fiddle to Porkopolis as a democratic city.

FRENCH TURROS has the exceeding bad taste to print his own picture in his paper, the Richmond Minx. He must be vain of his elongated corpulence.

GIBSON TAYLOR has assumed editorial control of the Winchester Sun, lately disposed of by John L. Bosley.

ALTHOUGH nearly all of the newspaper seem to be on Goodloe's side, the fact is pretty clearly demonstrated that he was the aggressor. His uncalled-for, not to say exaggerated, remark at the Louisville convention first caused the trouble and his rough "You obstruct the way, sir," brought on the tragedy. Col. Swope was not a blood-thirsty man, but patient and long suffering, though it was not in his nature to forever brook ceaseless insult. Goodloe might have easily avoided the difficulty and left his enemy to carry out his intention of leaving the State for a Western home in a short time. It was well indeed that he followed his victim so soon into the great unknown. So bloody and heartless a butcher did not deserve to live. A remarkable fact in connection with the affair is that no dying declaration by Goodloe has been given to the press. If this statement was favorable to him it certainly would have been made public.

THAT sanctimonious son-of-a-sea-cook, Postmaster General John Wanamaker, whose position in Harrison's Cabinet was bought and paid for, promised Gen. Wade Hampton that the postmaster at Columbia, S. C., where the general gets his mail, should serve his time out and that he would consult him with reference to his successor. Instead of keeping his word as all pious Sunday-school superintendents are supposed to do, this bright and shining light of republicanism and religion, removed the democrat and appointed a republican without ever saying a word to Hampton. Thereupon the general very natural denounces him as liar and suggests that he study the story of Ananias and Sapphira and lecture on it to his class. A challenge is in order, but it will not be sent. The sniffling hypocrite will continue to lie and kick stamps, pray and prevaricate, extort and equivocate.

THESE is already a great scramble for the office of collector of the Lexington district, made vacant by the death of Col. Goodloe. Young Blaine, who has been deputy under three administrations, including Gen. Robinson's, is the best qualified man for the place and ought to have it, but we fear he is not politician enough. We asked Col. Bradley who would get the appointment. He had no idea, but supposed the president would name some one not connected with either of the factions of Swope or Goodloe. He said he did not believe Denny would want it as he had a better thing in his law practice, but he would be a good man for the position. In the meantime Mr. Blaine, who is a relative of the Secretary, is running the office as he has done for the last several years.

THE citizens of Louisa, Ky., held an indignation meeting and passed some salty resolutions on Postmaster McClure when they found that he telegraphed to Washington asking for government protection, as the democrats had demolished his office in celebrating the recent victories. The real damage done was the breaking of three panes of glass and a glass door panel by concussion produced by an explosion of dynamite in the middle of the street and for which responsible parties offered to pay in full. McClure's case is one of those which might properly come under the supervision of the gentleman who bosses the job of dragging the creek with the carcasses of such cusses as he.

THERE is no silly sentiment about the Indiana Supreme Court, which has decided that women are not eligible to an elective office. Unfortunately the Kentucky Court of Appeals had already decided that they can hold office in this State.

GOV. AMBRETT's plurality in New Jersey is 14,552, against Cleveland's 7,149 in 1888, more than double. New Jersey can always be relied on by the democracy, which rejoices to see her become more democratic at each election.

WICKED Cincinnati has to charter special coaches to take her convicts to the penitentiary. The number shipped Monday was 30 and still there are thousands more to follow.

### NEWS CONDENSED

Boies' plurality for governor of Iowa is 5,804. The rest of the republican ticket is elected.

Another version of the Perry county war is that Judge Hearst was shot and the court-house burned.

The official returns show that Lampson, republican, is elected Lieutenant Governor in Ohio by 41 votes.

C. A. Smith, a brother of the ex-governor, was shot and killed by Calvin Brown, in a quarrel over politics at Heflin, Ala.

W. T. Walker, a lunatic in the asylum at Hopkinsville, cut his throat Tuesday and died from the effects the following day.

The steamer Queensmore caught fire and drifting on the rocks off the Irish coast, went down. No lives lost. She was valued at \$500,000.

The statue of Robert E. Lee, for Richmond, modeled by Merle, in Paris will not be ready by December. The unvanning has been postponed till May.

It costs \$30,000 to run the civil service commission, \$1,352,480 for the yearly expenses of the House of Representatives and \$889,804 for running the expenses of the Senate.

—Col. Goodloe's widow is an applicant for the office he held.

—Gov. Buckner has supplemented the president's proclamation with regard to the observance of Thursday, 29th, as Thanksgiving day.

—John Cunningham, convicted at Harrodsburg of criminally assaulting a 3-year-old child, was sentenced to the penitentiary for 16 years.

—After making out what he called "A through bill of lading by the morphine route to hell," John P. Hamilton, an old steamboat man, took the poison and died.

—According to the report of C. Y. Wilson, Commissioner of Agriculture, there is a total of unmatured property in the State of \$227,465,388.55 or nearly half as much as is taxed. The value of exempted church property is placed at \$13,429,335 and of railroad property at nearly \$8,000,000.

—The French-Eversole feud has broken out afresh. A battle has been fought at Hazard, Perry county, between the leaders and their allies, which lasted 52 hours, ending only when the ammunition ran out. Three or four men were killed and several were badly wounded. French was in possession of the town at last accounts.

### LANCASTER, GARRARD COUNTY.

—Hugh Smith returned home Tuesday evening bringing with him his bride, whom he captured at Bristol, Tenn., last week.

—The train from this place to Richmond, on Monday, was badly wrecked between Hyattsville and Point Levee.

—Marshal Hamilton had Tom Hickman, of color, before the police court Monday last on charge of selling whisky illegally. He was fined \$25 which he reprieved.

—Miss Lula Batson was socially stormed on Monday evening by a party of young ladies and gentlemen, but she showed herself equal to the occasion and entertained the crowd in a manner befitting a week's preparation.

—Miss Nellie Marr entertained the Social Club on Tuesday evening and delighted all who attended with her usual winning ways and a nice lunch at a reasonable hour. Richmond avenue seems to be the gay portion of the town this season.

—W. E. Walker, who was nominated by the democratic committee for county judge, will have a card in this week's issue of the News, declining, for reasons best known to himself, to make the race. We regret exceedingly that matters have got into a shape that prompts this action by the head of the ticket, but Judge Walker is an honest, honorable, conscientious and upright man, as also a judge and he feels justified in taking this action or he would not do so.

—Now if everybody within 20 miles of Lancaster wants to see something real funny and laugh their sides sore, let them attend the entertainment to be given by the Ladies' Mite Society of the Presbyterian church entitled "The Old-Fashioned District Skirt" on Tuesday evening, Nov. 19th. It is supposed to represent a school of the 18th century and the scholars are impersonated by prominent people of the town, ranging in ages from 30 to 75 years. If it appears as funny to the audience as to the pupils during rehearsals it certainly will bring down the house.

—John L. Lowe, a native of Illinois, who has been in this county 10 months, was tried for lunacy Wednesday. He says a cart wheel ran over his head some years ago, which causes his mind to waver at times.

BRO. PULLIAM says it was a negro who deserted his wife and eight children at Harrodsburg and eloped. The white people there are not built that way.

THE INSPECTORS of the L. & N. passed up Wednesday to take a look at the Middlesboro extension of the Cumberland Valley Branch. We'll wager they found things O. K.

THE SYMPATHY of many friends will be with Capt. B. F. Powell in the loss of his excellent wife, notice of which is made elsewhere in this issue. Mrs. Powell was a greatly beloved neice of Postmaster J. R. Marrs, of Danville.

KILLED WITH A STANDARD.—News comes from Casey that Willis Hall, a miller, killed Jack Baker, a farmer, with a wagon standard in a fight, resulting from long enmity. Baker using a rock as his weapon, with which he did no damage.

IT is a shame that the negro, David Adams, should be permitted to remain in jail here, when there are three asylums in the State. He was adjudged a lunatic several months ago. His terrible screams can be heard day and night, as he tries to flee from imaginary koo-kloo. Jailer Owens has frequently to get up two and three times a night to quiet him.

NONE of the mountain jails are capable of holding the murderers that are occasionally put in them. The one at Barboursville was broken Tuesday night and Jeff Henderson, charged with the murderer of Howard Monroe, Lawson Goodwin, accused of the murder of Town Marshal Hubbard, and three others, charged with lesser offenses, made their escape. They pried a stone from the floor and dug out. Better return to your old plan of sending your prisoners here, Mr. County Judge of Knox, if you want them safely held.

GREGORY sent out his first cold wave signal for this section Tuesday, but it got deflected and failed to materialize. Instead of a snow, a heavy rain fell for 24 hours and the whole earth seems to be drenched to the centre.

THE Richmond Branch of the K. C. has been having tough luck for the last week or two. It is due here at 4:50 p. m. but it has arrived no night sooner than 7 and from that to 2 a. m. The latter delay was caused by a truck of the forward car running out between Hyattsville and Lancaster and throwing the cars around promiscuously.

SAFE ROBBED.—Wednesday evening Mr. D. W. Vandever went to his safe to change for a bill and found to his surprise that the little sack which he kept his silver in was missing, as well as the contents, amounting to about \$10. He had seen it there an hour or two previous to this and as he had not left the store since, the thief must have entered from the back of the store, through either the cellar or one of the windows. Mr. Vandever will investigate the matter and believes he will bring the thief to justice.

ON Wednesday's train Mr. Jas. Hatch, of Graves county, Mo., passed up to Knox county with a raving maniac named Dizney. They started from their home on Monday with the intention of visiting the homes of their childhood in Knox and Bell counties and when leaving Missouri Mr. Dizney was seemingly in fair health and splendid spirits. About midway between St. Louis and Louisville he seemed to lose his mind and jumping in the middle of the car aisle he began to dance at a furious rate. It took several men to quiet him and every few hours he would attempt to repeat the act, showing that he must have gone crazy on the subject of dancing. Mr. Hatch informed an INTERIOR JOURNAL representative that he had never shown signs of insanity before, but that he had seen him dance at balls all the night long and he believed his mind was interfered with by his incessant thought and love for dancing. He will be taken back to his home and tried for lunacy.

## DEATHS' DOINGS.

POWELL.—Died, at the family residence, in the McCormack neighborhood, at 1:30 p. m., on the 13th inst., Mrs. Sally Ann Powell, wife of Capt. Ben F. Powell, in the 41st year of her age, of puerperal fever. The deceased was most highly esteemed by all her neighbors for her amiable disposition and her kind and generous deeds to the suffering.

—For a number of years she had been greatly afflicted, but had borne her afflictions with the most perfect Christian resignation, and when the summons came she was ready and willing to go. She was the mother of quite a large family of children, eight of whom survive her. Services appropriate to her memory were held in McCormack's church on yesterday, Thursday, afternoon, and her remains laid to rest in the old churchyard, where sleep so many of her friends and neighbors.

## CHURCH AFFAIRS.

—Elders Martin Owens and Richard and John Todd held an eight days' meeting at Stilesville, Pulaski county and received 18 into the church.

—According to the minutes of the Tate's Creek Association, the Crab Orchard church has the largest Sunday school of 23 churches, having 225 scholars. Stanford comes next with 112.

—The union meeting, which is held in the morning at the Baptist church and at night at the Presbyterian, is "gathering them in" in a way that brings joy to the Christian heart. Wednesday night, after a sermon by Rev. Ben Helm, who preached in place of Rev. J. W. Lynch, who was broken down, nine persons went forward and made the good confession. This makes 32 additions and confessions since the beginning of the meeting, now in its third week. Mr. Lynch, the young divine who has been doing the preaching principally, has endeared himself to all his hearers by the earnest, eloquent and impressive manner in which he has presented his Master's cause and urged sinners to flee from the wrath to come. Mr. Lynch preached his farewell sermon yesterday morning, at which time four more young people accepted Christ as their Savior. Revs. Hunt and Helm will continue the meeting the balance of the week if no longer.

FOR SALE.—12 medium to extra mule colts. D. A. and H. H. Colyar, Richmond, Ky.

—Senator Hearst says he is determined that Sunol shall not leave California if he has to pay half a million dollars for him.

—J. C. Fox, of Boyle, bought of W. M. Lackey 44 yearling mules at \$80. Mr. Fox will take them to Wayne county and dispose of them.

—Axtell's hook, limited to 40 patrols, is already nearly full for next season, at a service fee of \$1,000, which admits of the usual return privileges.

—Some of the fastest trotting records of the year, so far, are Guy, 2:10; Axtell, 2:12; Belle Hamlin, 2:12; Palo Alto, 2:13; Sunol, 2:10; Bonnie McGregor 2:13, and Nelson 2:14.

—The get of the great race-horse Lomatus are said to be very fractions and on that account very hard to train and keep in condition. Only a few of them have as yet proven moderately good.

—In Cincinnati there is a good demand for feeding cattle and butchers are stronger. Very common to best shippers 11 to 14; feeders 2½ to 3; hogs are weak at 3 to 3½; sheep stronger at 2½ to 5.

—J. W. Ginst is looking up some youngsters to fill his stable, which is now, William, a deservedly popular gentleman, will train for the spring meeting. We hope he will secure one or more equal to or better than Terra Cotta.

—Stanford, the great breeder of great trotters in California, says that he is thoroughly satisfied that the lowest possible record that may be reached by trotters will be made by horses possessing large percentage of racing or thoroughbred blood. Hence he is breeding many thoroughbred mares to trotting horses and thoroughbred horses to trotting mares.

—S. D. Goff sold to M. Kahn 325 cattle, weight about 1,550 pounds, at 4 cts. W. B. Kidd shipped to Baltimore Saturday, for exports 400 cattle, grass fed and weighing 1,680 lbs. which were bought at 4 cents, and on Monday he shipped to New York 421 corn fed cattle of 1,550 lbs. weight which were purchased at the same price. W. O. Brock shipped this week to Baltimore 225 hogs, weight from 150 to 250 pounds, which were purchased at 34 cents. —Winchester Democrat.

Telephone Line to Danville.

Prof. L. Eddy writes as follows in reference to his telephone lines:

There is now a telephone line from Danville to Lexington, connecting there with lines to Mt. Sterling and Winchester; to Paris, Cynthiana and Cincinnati; Versailles, Frankfort and Louisville; other places between these are also connected. I have also built lines to Harrodsburg, Perryville, Junction City and other places in Boyle county, placing them thus in immediate communication with each other and with the points first named. I have a contract with the East Tennessee Telephone Co., covering this territory, and my plan is to have lines from Danville to Stanford, to Lancaster and perhaps to Hustonville, and have the centre of the system in Danville that I may be able to oversee it and keep it in order, but communications between any two points can be readily made.

Your people may be a little chary of taking stock in telephones after their former experience with the Bunker instrument and a cheap line and may fear failure again, but my lines have now been in operation for 3, 10 and 18 months and have given the satisfaction usual to the Bell lines, only hard storms causing the exceptions. The commercial travelers of this district have found them of such use that they call earnestly for their extension. That the system is a success is further seen in its extension hitherto, 20 miles of line having been erected the past summer. Not only should Stanford be connected, but the line should be extended to Rowland and Crab Orchard.

—The body of W. H. Sheppard, drowned at Little Hickman, was found in the river at High Bridge.

—Mr. A. J. Coleman, of this county, will wed Miss Carrie Taylor, of Shelby county, at the home of the bride's parents, Nov. 19.—Harrodsburg Sayings.

—The dam of a flour mill above Alton, Ill., broke and the water swept down toward the town, carrying away six mills and several dwellings and doing much other damage.

—Wils Howard, the Harlan county desperado, ceased from his lawless acts long enough to write a column and a half of black matter to the Courier-Journal, in which he claims that he is not as black as painted, though all who oppose him are horse thieves and scoundrels.

## Col. Welch's Response.

MESRS. HUTCHINGS, BRONAUGH, HARDEMAN AND OTHERS—GENTLEMEN:—I have

read your "open letter" in the INTERIOR JOURNAL of the 8th, in which you suggest me as a suitable delegate to the anticipated Constitutional Convention.

I thank you for the complimentary terms in which the suggestion is made. Coming from the people of my old home, it is a mark of friendly partiality on your part which is peculiarly grateful to me.

The position itself will be one of such responsibility and honor as might well tempt the ambition of any man. The Convention, however, has not been called and may never be. It would, therefore, be premature and improper at present to announce myself definitely a candidate.

I may say, though, that if the Convention is ordered by the next Legislature, and if your desire to send me as a delegate is shared by the rest of the county, I shall be pleased and proud to serve you in that capacity.

Respectfully, W. G. WELCH.

Stanford, Nov. 14.
